UC HEALTH HACK 2018

EVENT
UC Health Hack (UC HH) is an annual interdisciplinary hackathon hosted by UC San Diego Health and members of the University of California's six health systems.

Students, physicians, and industry professionals will have the opportunity to address and solve issues related to integrative medicine and global health in a fast-paced, competition format.

Teams of up to five members collaborate over the course of two days to solve critical healthcare problems, under the guidance of world-class mentors and field experts.

Participants bring their ideas to fruition with prototyping software, hardware supplies, and fabrication labs.

All projects are presented to judges in a project expo. Finalists move on to present to a panel of judges, who will select the winning teams.

EVENT DATE
OCTOBER 6 – 7, 2018

EVENT LOCATION
UC San Diego Campus - Medical Education
Telemedicine (MET) Building
9500 Gilman Drive
La Jolla, CA 92039

An exciting and fast-paced hackathon to promote interdisciplinary engineering and IT innovation for today's critical medical problems. UC Health Hack is an event that cannot be missed!

IMPACT
UC Health Hack was created to promote innovation in healthcare and to inspire participants to develop solutions to issues in today's healthcare environment.

The goal of UC Health Hack is to help close healthcare gaps from the acute care setting to precision medicine at home, empowering patients and their providers.

Through the support of the UC Health System and vendor partnerships, winning teams will have the opportunity to pursue their ideas and develop them further through mentorship, granted access to lab space, and funding opportunities.

WHY GET INVOLVED?

PROMOTE
Encourage interest in global health and integrative medicine among UC Health Hack participants. Help raise awareness of research and advances in the biomedical field.

INSPIRE
Galvanize participants to pursue a career in health and biotechnology. Spark the next innovative solution in patient-centered healthcare.

INTERACT
Encourage interest in global health and integrative medicine among UC Health Hack participants. Help raise awareness of research and advances in the biomedical field.

DEVELOP
Foster critical thinking and technical skills that will enhance participant problem-solving in a fast-paced environment to bring about the best solutions for today's healthcare problems.
